

MultiUser Conference Pass
2010 CGA Excavation Safety Conference & Expo
San Diego, March 2-4

Reducing damages improves safety and reduces cost. What did damages cost you in 2009? At the CGA Excavation Safety Conference & Expo, you will learn how to reduce these damages and improve the bottom line.

For 2010, we have created the MultiUser Conference Pass which can be used by local companies and municipalities. The purpose for the MultiUser Conference Pass is to make the conference available to more people who would normally not have the opportunity to attend a 3 day conference. This MultiUser Conference Pass is very flexible, as it can be used by either 2 or 3 different people, but all must be from the same company. Three different people can each go one day, or one person can go two days and another person one day. These people can all go different days, or all go the same day, whatever fits the schedule you choose.

The CGA Excavation Safety Conference & Expo is an international show, in its 5th year and is the industry's leading event in damage prevention and excavation safety. In 2010 we will be at the San Diego Convention Center, March 2-4. We have seen growth in attendees and exhibitors every year, and typically have representation from 48 states, 5 Canadian Provinces and numerous other countries. This year, Mary B. Mujica, President of Shell Pipeline Company LP and Cynthia L. Quarterman, PHMSA Administrator will be the keynote speakers at the Common Ground Alliance (CGA) Annual Meeting Breakfast, which will be attended by over 600 people. There will also be over 50 Conference Sessions, a variety of Workshops, over 100 Exhibits and Demonstrations, and numerous networking events. We not only promote the growth of technology in this industry, but also the increased support of damage prevention and the awareness of excavation safety.

The show goes from Tuesday, March 2nd thru Thursday, March 4th. There are different time slots for sessions on each day, which you can see online. The Exposition Hall opens Tuesday at 5:00pm and goes until 7:30pm, Wednesday is open from 9:30am until 5:00pm and Thursday from 8:00am until 2:00pm. You can go to the web site at www.excavationsafetyonline.com/cga and view the schedule of events, which will show you times for session, meals, workshops (additional charge) and special events. Don't miss this chance to allow you and your staff the opportunity to learn more with multiple sessions on Damage Prevention, Excavation Safety, New Technologies, displays and exhibits that relate to all.

The cost of the MultiUser Conference Pass is \$750.00 and is not available on the web site. Registration deadline is February 19, 2010. To request a MultiUser Conference Pass registration form, contact us at the information below.
